2.1.5 Benefits of the Proposed RRPT Renewal

The APB Group has a long-standing business relationship with the Transacting Parties. The Transacting Parties are reliable suppliers of goods and services required by the APB Group for its business. The goods and services provided by the Transacting Parties are in the view of your Directors and Audit Committee priced competitively and all transactions between the APB Group and the Transacting Parties are carried out on an arms-length basis.

Although the APB Group also sources from third parties, the APB Group proposes to seek shareholders' mandate as the close co-operation with the Transacting Parties is in the view of your Directors expected to continue to be of benefit to the APB Group.

2.1.6 Review Methods or Procedures for the Recurrent Related Party Transactions

The following review and approval procedures are in place to ensure that RRPT are undertaken on an arms-length basis and on commercial prices and terms consistent with the APB Group's usual business practices and policies, which are no more favourable to the Transacting Parties than those extended to third parties/public and, are not detrimental to APB's minority shareholders:

- (a) All companies within the Group have been informed of the definition of Related Party and the review procedures applicable to all RRPT with Related Parties;
- (b) All companies within the Group shall only enter into RRPT after taking into account the pricing, level of service, quality of product as compared to market prices and industry standards. Any RRPT entered into shall be treated and processed on normal commercial prices and terms consistent with the Company's usual business practices and policies and will not be detrimental to the minority shareholders. After ascertaining that the RRPT have met these stringent conditions, only the General Manager and/or Deputy General Manager of the respective companies within the Group are authorised to enter into all value of RRPT.
- (c) All companies within the Group are guided by a set of rules and policies with regard to new RRPT to be entered into. The main rules and policies include, among others, the following:
 - (i) Certain documentations such as quotations from at least two (2) other sources other than the Transacting Parties must be obtained prior to Transacting Parties' products and/or services are rendered to or from the Group. This is to ensure that the transactions are based on prices which are competitive in comparison with the

prevailing market prices, and on rental, the tenure and renewal of rental and maintenance services provided that are similar to the commercial prices and terms for transaction with the public, which depend on the demand and supply of the products and services;

- (ii) Where Transacting Parties are engaged for their services, proper documentation shall be prepared such as agreement, contract and letter of engagement to govern the services, which would be reviewed from time to time (normally within 2 years); and
- (iii) An interested director and/or shareholder is required to abstain from negotiations and from deliberating and voting on a proposal to enter into a RRPT;
- (d) A list of RRPT will be circulated to the Audit Committee for review to ensure that the transactions entered into are on arms-length basis, based on commercial prices and terms and are not more favourable to the Transacting Parties than those generally available to the public and, are not detrimental to APB's minority shareholders;
- (e) The Audit Committee will also review conflict of interest situations that may arise within the APB Group as a result of the RRPT;
- (f) Such reviews will be conducted on a quarterly basis together with the review of quarterly results, or such other frequency as the Audit Committee may consider appropriate;
- (g) If a member of the Audit Committee has an interest in the RRPT, he will abstain from any decision making by the Audit Committee in respect of such transactions;
- (h) The annual internal audit plan will incorporate a review of all RRPT in its corporate governance audit to ensure that the review procedures in respect of such transactions are adhered to; and
- (i) The Audit Committee will report its review of all RRPT to the Board.

2.1.7 Statement from the Audit Committee

The Audit Committee has seen and reviewed the procedures mentioned in Section 2.1.6 above and is of the view that the said procedures are adequate to monitor, track and identify the RRPT in timely and orderly manner to ensure that the RRPT are not more favourable to the Transacting Parties than those generally available to the public and are not to the detriment of the minority shareholders.

The Audit Committee has reviewed on a quarterly basis the procedures mentioned in Section 2.1.6 above.

2.2 PROPOSED SHARE BUY-BACK RENEWAL

2.2.1 Details of the Proposed Share Buy-Back Renewal

As the authority for the Company to purchase its own shares will expire upon the forthcoming AGM of the Company, the Company wishes to seek a renewal of mandate from its shareholders for the Company to purchase up to 10% of its issued and paid-up share capital of the Company at any point in time. The purchase of APB's own shares will be carried out through Bursa Securities via stockbroker(s) to be appointed by APB.

As at 5 January 2010, the issued and paid-up share capital of the Company was RM112,875,002 comprising 112,875,002 APB Shares. The Proposed Share Buy-Back Renewal will allow APB to purchase or hold any of its own shares as treasury shares in aggregate not more than ten per centum (10%) of the issued and paid-up share capital, as follow:

	No. of Shares
Based on the issued and paid-up share capital of the Company of 112,875,002 Shares and no resale or distribution of 2,030,200 treasury shares prior to the implementation of the Proposed Share Buy-Back Renewal	9,257,300

The Listing Requirements stipulate that a listed issuer must ensure that the proposed purchase of its own shares is made wholly out of retained profits and/or the share premium account of the listed company.

The maximum amount of funds to be utilised by the Company for the Proposed Share Buy-Back Renewal will not exceed the Company's retained profits and/or share premium. Based on the Company's latest available audited financial statements as at 30 September 2009, the retained profits stood at RM2,482,173 and there was no share premium reserve at that date.

Any APB Shares to be bought by APB pursuant to the Proposed Share Buy-Back Renewal will be first funded from internally generated funds and/or funded by external borrowings, if so required. At the moment, the Company does not have any external borrowings for such purpose. In the event that the Company intends to purchase its own shares using external borrowings, the Board shall ensure that the Company shall have sufficient funds to repay the external borrowings and interest expense and that the repayment would not have any material effect on the cashflow of the Company.

The actual amount of internal funds and/or external borrowings to be utilised will depend on, amongst others, the available internally generated funds, actual number of APB Shares to be purchased and other relevant cost factors at the time of purchase(s).

Subsection (3A) of Section 67A of the Act allows APB to cancel the purchased APB Shares, to hold the purchased APB Shares as treasury shares or a combination of both. The purchased APB Shares held as treasury shares may be distributed to the shareholders of APB as share dividends, resold on Bursa Securities in accordance with the relevant rules of Bursa Securities, subsequently cancelled or any combination of the three. The Company may have the opportunity to realise capital gains if these shares, held as treasury shares, are resold on Bursa Securities at a price higher than the purchase price. The decision whether to retain the purchased APB Shares as treasury shares, or to cancel the APB Shares purchased or a combination of both, will be made by the Board at the appropriate time.

Pursuant to Section 67A (3C) of the Act, while the purchased APB Shares are held as treasury shares, the rights attached to them in relation to voting, dividends and participation in any other distribution or otherwise are suspended. The treasury shares shall not be taken into account in calculating the number or percentage of shares or of a class of shares in the Company for any purposes including substantial shareholding, takeovers, notices, the requisitioning of meetings, the quorum for a meeting and the result of a vote on a resolution at a meeting.

The shareholders' mandate for the Proposed Share Buy-Back Renewal will be effective upon the passing of the ordinary resolution for the Proposed Share Buy-Back Renewal at the forthcoming AGM until:

- (a) the conclusion of the next AGM of the Company following the general meeting at which such resolution was passed at which time it shall lapse unless by ordinary resolution passed at that meeting, the authority is renewed, either unconditionally or subject to conditions;
- (b) the expiration of the period within which the next AGM is required by law to be held; or
- (c) revoked or varied by an ordinary resolution of the shareholders of the Company in general meeting,

whichever occurs first.

Pursuant to Paragraph 12.17 of the Listing Requirements, APB may only purchase its own shares at a price which is not more than fifteen per centum (15%) above the weighted average market price for APB Shares for the five (5) market days immediately preceding the date of purchase(s).

In the case of a resale of treasury shares, if any, the Company may resell the treasury shares on the Bursa Securities at:

- (a) a price not less than the weighted average market price for the APB Shares for the five (5) market days immediately prior to the resale; or
- (b) a discounted price of not more than five per centum (5%) to the weighted average market price for the APB Shares for the five (5) market days immediately prior to the resale provided that:
 - (i) the resale takes place no earlier than thirty (30) days from the date of purchase; and
 - (ii) the resale price is not less than the cost of purchase of the APB Shares being resold.

As at 5 January 2010, the public shareholding spread of APB stood at 43,582,478 APB Shares representing 39.32% in the hands of 2,647 public shareholders holding not less than 100 APB Shares each. The public shareholding spread of APB will reduce as a result of the Proposed Share Buy-Back Renewal, assuming all purchased APB Shares are purchased from the market from public shareholders, as follows:

	Before the Proposed Share Buy-Back Renewal	After the Proposed Share Buy-Back Renewal
Assuming no resale or distribution of 2,030,200 treasury shares prior to the implementation of the Proposed Share Buy-Back Renewal	39.32%	33.79%

Pursuant to Paragraph 12.14 of the Listing Requirements, APB must not purchase its own shares on the Bursa Securities if that purchase(s) will result in the Company being in breach the 25% public shareholding spread.

In view of the above, APB will take necessary measures to ensure that the aforesaid public shareholding spread is met and maintained at all times (including, among others, only purchasing such number of APB Shares under the Proposed Share Buy-Back Renewal to maintain at least 25% public shareholding spread).

2.2.2 Implication of the Code

The Proposed Share Buy-Back Renewal may result in substantial shareholder(s) and/or parties acting-in-concert with it incurring a mandatory take-over offer under the Code. Therefore, should APB wish to purchase its own shares which would result in substantial shareholder(s) and/or parties acting-in-concert with it incurring a mandatory take-over offer obligation under the Code, an exemption under Practice Note 2.9.1 of the Code would be sought from the SC, subject to certain conditions as set out in the Practice Note being met, since the increase in their shareholding is inadvertent and is a result of the action that is outside their direct participation.

Based on the current shareholding as at 5 January 2010, Ikram Pintas by itself holds 30,876,000 APB Shares representing 27.86% of the issued and paid-up share capital of APB. Further, Ikram Pintas, together with parties acting-in-concert with it (namely Yap Kow @ Yap Kim Fah, Tan Teng Khuan, Gan Chin Boon, Lim Hong Liang, Yap Kau @ Yap Yeow Ho, Yap Swee Sang, Yap Puhui Lin, TTS Resources, Rare Prestige Sdn Bhd, Cheong Boon Yu, Lim Lye Hock and Danau Restu Sdn Bhd) collectively own 61,923,035 APB Shares representing 55.86% of the issued and paid-up share capital of APB. In view of the above, Ikram Pintas, either by itself or together with parties acting-in-concert with it, will be required to make a mandatory take-over offer should APB purchases its own shares pursuant to the Proposed Share Buy-Back Renewal such that Ikram Pintas and parties acting-in-concert with it increases their total shareholdings in APB by more than 2% in a six (6) month period unless an exemption under Practice Note 2.9.1 has been granted beforehand by the SC.

In the event the Company purchases its own shares which would result in the substantial shareholders and/or parties acting-in-concert with them triggering a mandatory offer obligation under the Code,

approval would be sought from the SC for exemption under Practice Note 2.9.1 of the Code before the purchase is made.

SC had vide its letter dated 18 March 2009 approved an exemption under Practise Note 2.9.1 of the Code upon the mandatory conversion of ICPS into APB Shares.

2.2.3 Potential Advantages and Disadvantages of the Proposed Share Buy-Back Renewal

The potential advantages of the Proposed Share Buy-Back Renewal to the Company and its shareholders are:

- (a) if the purchased APB Shares are cancelled, the EPS of APB Group will be enhanced and shareholders are likely to enjoy an increase in the value of their investment in the Company;
- (b) the Company's share capital base will be reduced pursuant to the Proposed Share Buy-Back Renewal, which may increase the likelihood of a higher dividend rate being declared in the future; and
- (c) if the purchased APB Shares are retained as treasury shares, it will provide the Board with an option to sell the purchased APB Shares at a higher price and therefore make an exceptional gain for the Company. Alternatively, the purchased APB Shares can be distributed as share dividends to shareholders and provide a reward to the shareholders of the Company.

The potential disadvantages of the Proposed Share Buy-Back Renewal to the Company and its shareholders are:

- (a) as the Proposed Share Buy-Back Renewal can only be made out of retained profits and the share premium reserves, it may reduce the financial resources available for distribution to the shareholders of the Company in the foreseeable future;
- (b) resultant opportunity costs for the Company as better investment opportunities may be foregone in the future with the reduction in financial resources of APB Group available upon implementation of the Proposed Share Buy-Back Renewal; and
- (c) deprive the Group of interest income that can be derived from the funds utilised for the Proposed Share Buy-Back Renewal. Further, if the Proposed Share Buy-Back Renewal is financed via bank borrowings, the Group shall have to service interest obligations.

The Proposed Share Buy-Back Renewal, however, is not expected to have any potential material disadvantages to the Company and its shareholders, as it will be exercised only after in-depth consideration of the financial resources of APB which need to be balanced against investment opportunities and other proposals that can enhance value for its shareholders. The Board in exercising any decision on the Proposed Share Buy-Back Renewal will be mindful of the interest of the Company and of its shareholders.

2.2.4 Purchase of APB Shares and Resale of Treasury Shares Made in the Previous Twelve (12) Months

For the financial year ended 30 September 2009, the Company has not acquired any ordinary share. The Company has not resold, cancelled and/or distributed any treasury shares as dividends in the previous twelve (12) months preceding the date of this Circular.

3. RATIONALE FOR THE PROPOSALS

3.1 Proposed RRPT Renewal

The RRPT entered or to be entered into by the APB Group are all in the ordinary course of business. They are recurring transactions of a revenue or trading nature which are likely to occur with some degree of frequency and arise at any time and from time to time. These transactions may be constrained by the time-sensitive nature and confidentiality of the same may render it impractical to seek shareholders' approval on a case by case basis before entering into such related party transactions.

As such, APB is seeking a shareholders' mandate pursuant to Paragraph 10.09 of the Listing Requirements for the RRPT described in Sections 2.1.3 and 2.1.4 above to allow the APB Group to enter into such RRPT on an arms-length basis and on normal commercial terms and which are not prejudicial to the interests of APB's shareholders. By obtaining the Proposed RRPT Renewal on an annual basis, the necessity to convene separate general meetings from time to time to seek shareholders' approval as and when such RRPT occur, would not arise. This would reduce substantial administrative time, inconvenience and expenses associated with the convening of such meetings, without compromising the corporate objectives of the APB Group or adversely affecting the business opportunities available to the APB Group.

3.2 Proposed Share Buy-Back Renewal

The Proposed Share Buy-Back Renewal would enable the Company to purchase its own shares from the open market to capitalise on market inefficiencies and to act in the best interest of the Company. The Proposed Share Buy-Back Renewal, if implemented, may stabilise the supply and demand of APB Shares, which may subsequently have a favourable effect on the market price for APB Shares.

Any shares purchased under the Proposed Share Buy-Back Renewal, whether to be held as treasury shares or subsequently cancelled, will effectively reduce the number of APB Shares carrying voting and participation rights. Therefore, the shareholders of the Company may enjoy an increase in the value of their investment in APB due to the increase in its earnings per share.

The purchased APB Shares could be held as treasury shares and resold on Bursa Securities at a higher price with the intention of realising potential gain without affecting the total issued and paid-up share capital of the Company. Should any treasury shares be distributed as share dividends, this would serve to reward the shareholders of the Company.

4. FINANCIAL EFFECTS

The Proposed RRPT Renewal will not have any financial effect on the earnings, share capital, net assets, shareholding structure, shareholdings of substantial shareholders, dividends and gearing ratio of the APB Group.

The financial effects of the Proposed Share Buy-Back Renewal shown below are based on the assumption that APB will have adequate retained earnings and/or share premium account to undertake the Proposed Share Buy-Back Renewal up to the maximum of ten per centum (10%) of its issued and paid-up share capital. The actual quantum of shares purchased under the Proposed Share Buy-Back Renewal may be limited to the availability of the above-mentioned reserves.

The proforma effects of the Proposed Share Buy-Back Renewal based on the following scenario, are set out below:

Scenario: Assuming no resale or distribution of 2,030,200 treasury share.

4.1 Share Capital

The Proposed Share Buy-Back Renewal will have no effect on the issued and paid-up capital of APB if the purchased APB Shares are retained in full as treasury shares, resold or distributed as dividends to shareholders.

However, in the event the purchased APB Shares are cancelled, the issued and paid-up share capital will decrease by the number of shares cancelled. For illustrative purposes only, assuming that the maximum number of APB Shares are purchased and cancelled under the Proposed Share Buy-Back Renewal, the effect on the issued and paid-up share capital of the Company is set out below.

The actual quantum of shares purchased under the Proposed Share Buy-Back Renewal may be limited to the availability of the retained earnings and/or share premium account of APB.

	Scenario
	No. of APB Shares
Issued and paid-up share capital as at 5 January 2010	112,875,002
<i>Less</i> : Treasury shares	(2,030,200)
	110,844,802
<i>Less</i> : Maximum number of shares purchased pursuant to the Proposed Share Buy-Back Renewal *	¹ (9,257,300)
Resultant issued and paid-up share capital	101,587,502

Notes:

* *Assuming cancellation of all the APB Shares purchased.*

¹ *10% of the issued and paid-up share capital less treasury shares of 2,030,200.*

4.2 NA

The effect of the Proposed Share Buy-Back Renewal on the NA per share of the Group is dependent on the number of APB Shares purchased, the purchase price(s) of the APB Shares purchased, the effective cost of funding and the treatment of the APB Shares purchased.

The Proposed Share Buy-Back Renewal will reduce the NA per share when the purchase price exceeds the NA per share at the time of purchase. On the contrary, the NA per share will increase when the purchase price is less than the NA per share at the time of purchase.

4.3 Gearing

The Proposed Share Buy-Back Renewal is not expected to have any material effect on the Company's gearing.

4.4 Working Capital

The Proposed Share Buy-Back Renewal will reduce funds available for working capital purposes of the Company, the quantum of which depends on the purchase price of the APB Shares, the actual number of purchased APB Shares and any associated costs incurred in making the purchase.

4.5 Earnings and EPS

The effects of the Proposed Share Buy-Back Renewal on the earnings of the APB Group would depend on the purchase price and the number of APB Shares purchased. The effective reduction in the issued and paid-up share capital of the Company pursuant to the Proposed Share Buy-Back Renewal will, generally, all else being equal, have a positive impact on the consolidated EPS of the Company.

4.6 Dividend

The Company declared and paid an interim dividend of 3.5% less tax and recommended a final dividend of 3.0% in respect of the financial year ended 30 September 2009. The Proposed Share Buy-Back Renewal is not expected to have any material impact on the policy of the Board in recommending dividends for the financial year ending 30 September 2010, which would depend on, amongst others, the profitability and cashflow position of the Company.

On the other hand, the purchased APB Shares may be distributed as dividends to the shareholders of the Company, if the Board so decides.

4.7 Directors' and Substantial Shareholders' Shareholding

The effects on the Directors' and substantial shareholders' shareholding based on the Company's Register of Directors and Register of Substantial Shareholders as at 5 January 2009 are as follows:
